“ Bruce was a cousin more like a brother we shared many a day running the hills, swimming in creeks, playing in the mud at the Tree House after a good rain or maybe at Dead Dogs pond, and the Tank after Uncle Johnny craved it out. There were times when our brothers put us into a circle to fight/wrestle each other when we would get mad towards each other, We shared stories about girls that we were in class with at Oak Hill Elementary, we used to collect bottles from the side of Old Bee Cave road to cash in at the Y store so we could buy some cigarettes, we started young! I can't recall the year but Uncle Edwin moved the family off the hill to Brenham, Tx. for his work, for me it was like having my brother taken away. Even though we grew apart in distance I always wondered how he was doing and got updates from my family, like the day he moved off the Hill outside of Oak Hill hearing of Bruce passing from his loved ones here brought those same feelings back, but he can now be with those loved ones who have passed before him and hopefully I will be able to see him again someday. He is loved here and will be missed.

HO

Thank you for sharing Bucky. My Dad told me about alot of stories from y'all growing up. He is surely gonna be missed. He taught me so much about the outdoors. My love for camping absolutely comes from him.
