“ Don was always so nice when he would come into the store and he was always the same friendly and helpful when you ran to him out in the Gorge. He sure was a good man.

“ I worked under Don in the late 70's as a college student intern. My feelings about Don would be to say that he was kind, careful, and steady in all his actions, words, and deeds.

Without a doubt, in the minds and hearts of many of us who knew him so well, he will always be the "Gentle Giant of the Red River Gorge".

“ Since I live in another state, most of my memories of Uncle Don were during summer visits as a young boy. We were lucky enough to get to try spelunking and rapelling and all sorts of explorations...with the benefit of being personally guided by him. I remember that every time we visited, he was always trying to give us something of his to take with us. I have a couple of those gifts with me still after 40 years, and I will treasure them now as I did before. Thanks for the memories Uncle Don.

“ Don was my hero. I looked up to him as a child and later worked with over the years. He taught me every thing I know about Search and Rescue. More important he taught me to be a man. Taught me to be honest. To serve my community. To serve my fellow man. Taught me how to be a good leader. Taught me how to be a gentleman. I can only hope I have turned out to be the tenth of man Don was There are many of us that would not be where we are at without Don. He supported everything that I ever tried to do. He would get you back on track if you swerved a little. He was the Best. I hope in my career I have helped others as Don did. I loved him like a Dad. Any many ways he was a Dad to many of us that had the privilege to grow up in his presence.

“ *I am so saddened to hear of the passing of this wonderful man. He and his wife, Susie, are two of the nicest people I have ever met. Don lived a life that was an inspiration to all others. He was a kind, caring, respectful, and hard working man, putting in many long hours as a forest ranger in the gorge. Everybody that met him, liked him immediately. Many years ago, when we owned Parkway Grocery in Slade, Don was a daily customer of ours. He was always friendly and talkative and we all enjoyed talking with him. He always had a smile on his face, even after working long hours. He usually stopped by to get gas, and usually had a story or two to tell. We always enjoyed listening to him. I would have to say that he knew the gorge area better than anybody and could tell you about anything concerning this area that you wanted to know. He was well respected by this community and we will all miss him. Susie, you and your family are in my thoughts and prayers.*

“ I am saddened to hear this. Don was a great friend when I was in Powell County in the 80s. From both the newspaper and the rescue standpoints, he was a huge help whenever there was an incident in the RRG — and there were many. He and Susie were always very good friends. I'm sorry for your loss, Susie. I'm sorry for the community's loss, for Don Fig was a wealth of knowledge, and I am truly a better person to have known him.

Such sad news. Don was a larger than life figure when I worked on the Daniel Boone National Forest in the 1990s and early 2000s. His commitment and dedication to his work was recognized and respected by all who knew him. My condolences to his family.
