Donald may have promised 99 years and 1 dark day, but he gave us the best 72 years he possibly could. He went from being a son up to a great grandfather, passing the same advice and thinning hair. “ *Donald (Donnie) to me as he is my big brother. I was blessed to have been able to have spent 5 years with him living with me a few years back. We were able to reconnect, spend time together, and do little things together, flea markets, and junk stores. I will miss him greatly. As his children and grandchildren will as well. My brother had a heart of gold, and tons of love to give. Fly high big brother! I love you*
