CJ

“ I just learned of my best friend from school's death. This was a shock. Over the years we had lost touch of one another and I'm so sorry we had not re-connected. We had some great times when her and Jim was married. She gave me the first job for my career. I was there for her son, Daniel's birth. At first, the doctors told her he was a "girl" and we had fun shopping for girl "pink: things. We laughed so hard when we found out he was a boy and we had to return all the goodies we had bought. She was such a generous person, Her and Jim bought me my wedding dress. I did not have the money and I was purchasing a cheaper dress, but Lesa would not hear of that. She took me shopping and bought the dress for me and helped me plan a beautiful wedding.

We had so many numerous times of fun together in Lexington. We done so much together. I went to Charlotte, NC, Jim died and then we lost touch with one another. I have thought of her a lot and was planning to try and find her. Wished I had.

You, Her family has lost a dear person and I pray for your heart to heal. Remember her as the wonderful person she was and always remember the laughs she gave you throughout her short life.

Love,
Clara Patton Jackson
