“ I met mark at Genesis recovery and we went through the program together. He was and always will be my brother, he helped me through the program taught me how to be humble and to let the things that bothers me in the past and to look for the future of sobriety. He is the one who talked me into staying after the program and go into phase 2 and get my silver chip and I did. I owe a lot to Mark and I will miss him dearly. I just wish I could have gotten to talk to him one more time. Love you brother you are dearily missed fly high.

“ I sure do hate to hear this! Me and Mark go back a lot of years! All the way back to middle school. We were like brother and sister for a lot of years. As we grew into young adults we took different paths but caught back up with each other these past few years! I am so glad that we did! When you get thru those gates up there give Brewer a big hug for me. R.I.P. my dear friend! I pray that you ALL R.I.P.
